Forecast for Thursday 06 May 2021

Weather: Thursday will see some limited sunny intervals and scattered heavy sleet, snow or hail showers with a small risk of a thunderstorm. Showers easing from mid-evening.

Chance of cloud free mountain/hill tops above 800m: 50%

Visibility: Poor in low cloud down to 500 metres, this extensive in the morning period, some breaks developing by the afternoon. Low cloud combined with snow will lead to reduced visibilities and potential navigational issues.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Be prepared for winter conditions at height with some fresh falls of snow.

Forecast for Friday 07 May 2021
Weather: A dry, bright start but scattered snow and hail showers developing from late morning, some of these briefly heavy. Showers easing away in the evening.

Maximum wind: Northerly 25 mph on the higher summits

Chance of cloud free mountain/hill tops above 800m: 70%, best chance in the morning

Visibility: Becoming poor for a brief time as showers pass through, cloud base lowering to 700 metres or so in heavier showers. Otherwise cloud mostly 900 metres or higher shrouding some of the highest tops at times.

Temperature: **Glens:** Minus 3 rising to 10 Celsius
At 800m: Zero Celsius
Freezing level: 800 metres
